Foreword

Crime in South Dakota is an annual publication based upon Uniform Crime Reporting (UCR) statistics. The UCR program is the basis for collecting data on selected crimes by participating agencies throughout South Dakota. Prior to 1990, this data collection effort was handled directly by the FBI with approximately thirty-two agencies reporting in 1989. On January 1, 1990, the Criminal Statistics Analysis Center became the State Clearinghouse for UCR data with 85% of the population being covered. Approximately ninety percent (90%) of the population was covered in 1991 with a total of ninety-six agencies reporting. In 1992, forty-nine Sheriffs' Offices and forty Police Departments submitted reports for a total of eighty-nine agencies covering approximately eighty-eight percent (88%) of the State's population.

On January 1, 1994, the South Dakota Criminal Statistics Analysis Center will begin accepting National Incident-Based Reporting System (NIBRS) data from participating agencies. Uniform Crime Reporting data will continue to be collected from agencies in the conversion process. NIBRS data will allow for more complete, accurate, and timely crime statistics. Because of the many benefits of NIBRS, I strongly encourage all agencies to participate in this crime reporting program.

I'd like to take this opportunity to recognize everyone involved with this project for your participation and cooperation. The Uniform Crime Reporting Program is strictly a voluntary program and without your assistance, the following crime data would be unavailable.

INTRODUCTION

Uniform Crime Reporting (UCR) is a cooperative effort among city, county, and State law enforcement agencies. The State Clearinghouse for UCR provides participating agencies with the necessary supplies required for Uniform Crime Reporting. Reports are completed and forwarded to the State Clearinghouse on a monthly basis. The Clearinghouse then reconciles all reports and submits them to the FBI, where national reports such as Crime in the U.S. are generated.

Certain constraints should be noted in interpreting the collective data for the State. The data included in this publication are based solely on actual figures, not estimated figures, from reports submitted by participating Sheriffs' Offices and Police Departments. These figures cannot be compared to 1991 data because of the difference in the number of reporting agencies, nor can these figures be compared to data released by the FBI, as the FBI estimates for non-reported data.

The population figures included in this publication were obtained from the South Dakota Data Center, University of South Dakota. These figures are currently the most accurate available. The information included in this report was generated by a combination of these population figures and the Uniform Crime Reporting Data collected from the participating agencies.

The statistics were analyzed for a twelve month period beginning January 1, 1992. However, several agencies did not report for an entire twelve month period. The information in this publication will reflect this partial participation. The data included in this report can only be as accurate as the data provided by each reporting agency. These figures are based on data received on or before June 30, 1993.

INDEX CRIMES PER 100,000 POPULATION

One of the most meaningful crime statistics used in Uniform Crime Reporting is the Crime Rate. This rate is the number of offenses per 100,000 inhabitants. This rate can be calculated regardless of the number of inhabitants in a city or county. To compute rates, divide the city's population by 100,000 and divide the number of offenses in each class by that answer. The answer is the number of offenses per 100,000 inhabitants and is your crime rate for that offense.

Example:

Population for jurisdiction - 75,000

Number of burglaries for that jurisdiction - 200

Divide 75,000 by 100,000 = 0.75000

Divide 200 by 0.75000 = 266.67

The Crime Rate for burglary in that jurisdiction is 266.67 per 100,000 inhabitants.

MURDER AND NONNEGLIGENT HOMICIDE

5 Offenses Reported
4 Offenses Cleared
4 Total Persons Arrested

The willful killing of one human being by another. Any death due to injuries received in a fight, argument, quarrel, assault, or commission of a crime is counted as a Homicide. Suicides, accidental deaths, assaults to murder, traffic fatalities, and attempted murders are not classified as murder and nonnegligent homicide.

- In 1992, there were 5 murders reported. Of these offenses, 80% were cleared.

In 40% of the cases the victim was 20 - 24 years old. Sixty percent were male, and 80% of the victims were white. A knife was used in three (60%) of the murders.

Three (60%) of the offenders were male and 60% were white. The circumstance in 80% of the murders was a single victim/single offender and there was one unknown offender. The relationships of the victims to the offenders were three (3) acquaintances, one (1) husband, and one (1) unknown offender.

A Supplementary Homicide report is submitted by the participating law enforcement agencies in all murder cases. The report provided pertinent information including the age, sex, and race of the victim and offender(s), and any circumstances which led to the commission of the crime. Beginning January 1, 1988 the requirement for the collection of ethnic origin was discontinued; therefore, the ethnicity of victims and offenders is no longer contained in this report.

RAPE

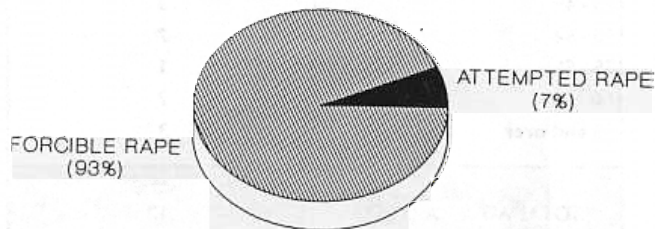

313 Offenses Reported
239 Offenses Cleared
131 Total Persons Arrested

The carnal knowledge of a female forcible and against her will. Rapes or attempts accomplished by force or threat of force are classified as forcible regardless of the age of the female victim. In the case that several men attack one female, only one forcible rape is counted. Statutory rape or other sex offenses are not recognized under this category. Sex attacks on males are excluded and classified as assaults or "other sex offenses" depending on the nature of the crime and the extent of injury.

- In 1992, there were 313 rapes reported. Of these offenses 76% were cleared. Seven percent of the total rapes reported were attempted forcible rapes.

Juveniles consisted of 15% of the total arrests made for rape and 34% of the persons arrested were in their 20's. June had the greatest occurrence with 38 rapes reported.

40 Total Persons Arrested

The taking or attempting to take anything of value from the care, custody, or control of a person or persons by force or threat of force or violence and/or by putting the victim in fear. Robbery involves a theft or larceny but is aggravated by the element of force or threat of force.

- In 1992, 117 robberies were reported. Of these offenses 50% were cleared.

Six bank robberies were reported in 1992 with a total amount stolen of \$8,177. The total amount of property stolen in robberies for 1992 was \$44,133. January had the most property taken at a value of \$13,231 for the month. November had the greatest occurrence of robberies with a total of fifteen. The highest average amount stolen(\$1,363) was from the banks (not including miscellaneous). Other dangerous weapons were used in fifty-two (44%) of the robberies reported in 1992. Supplementary robbery information, such as the location of the robbery, is obtained from the "Property Stolen by Classification" report. Highways, streets, and alleys accounted for 31% of robbery locations with a total of \$6,150 of property being lost and an average stolen of \$171.

An unlawful attack by one person upon another for the purpose of inflicting severe or aggravated bodily injury. This type of assault usually is accompanied by the use of a weapon or by means likely to produce death or great bodily harm. All assaults by one person upon another with the intent to kill, maim, or inflict severe bodily injury with the use of any dangerous weapon are classified under one of the aggravated assault categories. It is not necessary that injury result from an aggravated assault when a gun, knife, or other weapon is used.

- In 1992, there were 864 aggravated assaults reported. Of these offenses 76% were cleared.

The greatest occurrence of aggravated assaults was in October with 102 offenses. Hands, fists, and feet were used in 30% of the aggravated assaults. Nineteen percent of the total arrests for aggravated assault were juveniles.

OTHER ASSAULTS

OTHER ASSAULTS - SIMPLE, NOT AGGRAVATED

All assaults which do not involve the use of a firearm, knife or cutting instrument, or other dangerous weapon and in which there were no serious or aggravated injuries to the victims. Although simple assaults are not within the Crime Index, they are collected under other assaults as a quality control matter and for the purpose of looking at total assault violence.

- In 1992, there were a total of 3,725 other assaults reported. Of these offenses 78% were cleared.

Of the total arrests for other assaults, 19% were juveniles.

BURGLARY

Motor vehicle theft is not included and is counted separately because of the great volume of thefts in that particular category. All thefts and attempted thefts are counted.

- In 1992, there were 14,664 larceny offenses reported. Of these offenses 31% were cleared.

August had the greatest occurrence with 1,380 offenses. The total amount reported stolen for larceny offenses was \$4,130,417 with an average loss of \$282 per larceny. Twenty percent (20%) of the total stolen was taken from motor vehicles with an average loss of \$330. The highest number of offenses (2,991) were shoplifting. The theft or attempted theft of a motor vehicle. A motor vehicle is defined as a self-propelled vehicle that runs on land surface and not on rails. All automobiles taken by persons not having lawful access even though the vehicles are later abandoned, including a joyride, should be classified in this category.

- In 1992, there were 686 motor vehicle thefts totalling \$2,798,661. Of these offenses 40% were cleared.

July had the greatest occurrence with 73 offenses. Of the total value of property stolen, 31% were locally stolen motor vehicles. Over three-fourths (76%) of the locally stolen motor vehicles were also recovered locally. Juveniles were arrested for 61% of the motor vehicle thefts.

ARSON

115 Offenses Reported
50 Offenses Cleared
58 Total Persons Arrested

Any willful or malicious burning or attempt to burn, with or without intent to defraud, a dwelling house, public building, motor vehicle or aircraft, personal property of another, etc. Only fires determined through investigation to have been willfully or maliciously set are to be classified as arsons.

- In 1992, there were 115 arson offenses reported with a total property value loss of \$947,065. Of these offenses 43% were cleared. Seventy-one percent (71%) of those arrested were juveniles.

The greatest occurrence was in the month of July with a total of seventeen offenses. A total of fifty-eight arson arrests were made with almost half (48%) of the persons arrested being 14 years old and under. Sixty-two percent (62%) of all arsons occurred in a structure with single occupancy/residential being the most common (28%) of the structures. The highest total value loss was for other residential structures with a total of \$458,965.

ARREST DATA

41,509 Total Arrests
31,138 Adult Arrests
10,371 Juvenile Arrests

The total arrests submitted by the agencies in 1992 were 41,509.

The greatest number of arrests (10%) occurred in August. The Uniform Crime Reporting Program offenses are divided into two groupings, Part I and Part II offenses, and it is as important and essential to maintain uniformity in the data collection of persons arrested as it is in the offense data collection conducted for Part I crimes only. The Part II offenses encompass all other crime classifications outside those defined as Part I offenses. The Part I offenses include: Criminal Homicide, Forcible Rape, Robbery, Aggravated Assault, Burglary, Larceny, Motor Vehicle Theft, and Arson. Arrests for Part I offenses total 6,075. Larceny had the greatest total arrest rate (11%) for Part I offenses. Of the total arrests in the Part II offenses, 21% were made for liquor laws. Only 2% of the total arrests made in 1992 were drug abuse related.

LAW ENFORCEMENT OFFICERS ASSAULTED

82 Total Officers Assaulted

95% Cleared

In 1992, there were eighty-two (82) assaults on law enforcement officers reported. Of those assaulted, there were over one-third (39%) that received injuries. Ninety-five percent of the total assaults reported were cleared.

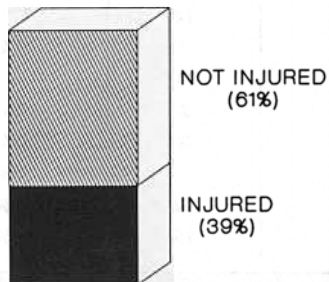

Disturbance calls (family quarrels etc.) had the greatest occurrence (34%) in the type of activity involved with the assault of a law enforcement officer. Most assaults (22%) occurred between the hours of 12:01 am - 2:00 am. The most common type of assignment consisted of a one officer vehicle that was assisted. Over half (63%) of the assaults happened with this circumstance. Hands, fists, and feet are most commonly used (75%) in the assaults that result in an injury. The same was true in 94% of the cases where there was no injury involved in the assault.

Trespass;
Unlawfully bringing weapons into prisons or hospitals;
Unlawfully bringing drugs or liquor into state prisons, hospitals, etc.; furnishing to convicts;
Unlawful disinternment of the dead and violation of sepulture;
Unlawful use, possession, etc. of explosives;
Violations of state regulatory laws and municipal ordinances (this does not include those offenses or regulations which belong in the above classes);
Violation of quarantine;
All offenses not otherwise classified; and
All attempts to commit any of the above.

Suspicion

- Arrests where persons arrested are released by the police.

Curfew and Loitering Laws (Juveniles)

- All violations of local curfew or loitering ordinances where such laws exist.

Runaways (Juveniles)

- Apprehensions for protective custody as defined by local statute. Do not include protective custody actions with respect to runaways taken for other jurisdictions.

Juvenile Arrests

- For purposes of Uniform Crime Reporting, a juvenile should be counted as "arrested" when the circumstances are such that if he or she were an adult, an arrest would be tallied. Arrests should not be scored in cases of:

1. police "contacts" with juveniles where no offense was committed;
2. juveniles taken into custody for their own protection but no crime was committed (e.g., neglect cases).

Hierarchy Rule

- Locate the offense that is highest on the Part I offense list, score that offense, and ignore the other offenses involved in the incident. Counting only the highest offense on the list and ignoring all others, applies only to crime reporting and does not affect the number of charges for which the defendant may be prosecuted in the courts. An exception to the rule is arson.

Unfounded Complaints

- A complaint which is determined through investigation to be false or baseless. If the investigation shows that no offense occurred nor was attempted, the reported offense can be unfounded for Uniform Crime Reporting purposes. The findings of a coroner, court, jury, or prosecutor do not unfound offenses or attempts which law enforcement investigations establish to be legitimate.

Clearances by Arrest

- An offense is "cleared by arrest" or solved for crime reporting purposes when at least one person is:

1. arrested;
2. charged with the commission of the offense; and
3. turned over to the court for prosecution (whether following arrest, court summons, or police notice). Although no physical arrest is made, a clearance by arrest can be claimed when the offender is a person under 18 years of age and is cited to appear in juvenile court or before other juvenile authorities.

Several crimes may be cleared by the arrest of one person, or the arrest of many persons may clear only one crime.

Exceptional Clearances

- If the following questions can all be answered "yes," the offense can then be cleared "exceptionally" for crime reporting purposes:

1. Has the investigation definitely established the identity of the offender?
2. Is there enough information to support an arrest, charge, and turning over to the court for prosecution?
3. Is the exact location of the offender known so that the subject could be taken into custody now?
4. Is there some reason outside law enforcement control that precludes arresting, charging, and prosecuting the offender?
